Join us for March's Technology Tuesday as we explore the world of iPad apps for educators. Presenter Trina Halama will share apps for the iPad that are educational tools that can be used in the classroom. There are a variety of useful apps to make the classroom livelier and more engaging for both the students and teacher. Among the apps being shared are apps for time management, social networking, discussion forums and boards, books, art and graphics, and much more. Some of the particular apps to be shared are: Kindle, How Stuff Works, Flashcardlet, free books, Red Stamp, Toontastic, Math Quizzer, Quick Graph, and more. This will be an opportunity to receive and share resources. If you have a particular question or suggestion you can contact Trina at thalama@fromberg.k12.mt.us.

Bring your iPad or use one of ours!

Trina Halama is a 2007 graduate of MSUB with an emphasis on elementary education and a minor in music. Currently, she teaches third grade at Fromberg Elementary School. She is on Fromberg's Technology Board, the Promethean Consortium Board, is pursuing certification to teach Promethean and SMART Board technologies, and has a vast knowledge of technology in general. Trina is also a Library Information and Technology Literacy trainer for the Montana Regional Education Service Area III.
